## Release Notes

### HID EdgePlus™ with Brivo ACS Plug-In

**Overview:** The HID EdgePlus™ device with the Brivo ACS Plug-in provides a self-contained control processor and host interface solution in one unit. The device must be purchased through Brivo Systems, LLC, for use on Brivo ACS WebService™ systems.

#### HID EdgePlus™ with Brivo ACS Plug-in: Features

The EdgePlus™ with Brivo ACS Plug-in is up and functioning in as few as four steps, connecting automatically just like a Brivo ACS control panel to establish immediate communication with the Brivo ACS interface. The device is pre-configured to connect to the host interface as soon as the wiring is connected, leaving no IP addresses to enter or networks to configure. The HID EdgePlus™ with the Brivo ACS Plug-in is available for purchase *only* through Brivo Systems, LLC.
