Release Notes

OnSite SE/XE® Release 2.1.4

Brivo is pleased to announce the release of version 2.1.4 for Brivo ACS OnSite SE and ACS OnSite XE. This release introduces no new functionality, but contains a number of smaller enhancements:

- Expanded available set of time zones for better international support
- Increased limit of OnSite XE accounts from 16 accounts to 128 accounts in order to accommodate larger configurations
- Improved network connection handling for better management of a wider variety of network configurations
- Increased input limits on email addresses for various uses within the system
