

DVR/CCTV Integration

Facts and Figures

Video stored on-site, fully integrated with your Brivo Online Access Control System

By simply providing IP information for the DVR and correlating camera locations with readers or other input devices, you will be able to play stored video clips for any event in the Activity Log. The Brivo solution also provides "live" viewing links

to any camera defined in your account. Because no physical connection is required between the control panel and the video equipment, a DVR and camera can easily be added to your account at any time.

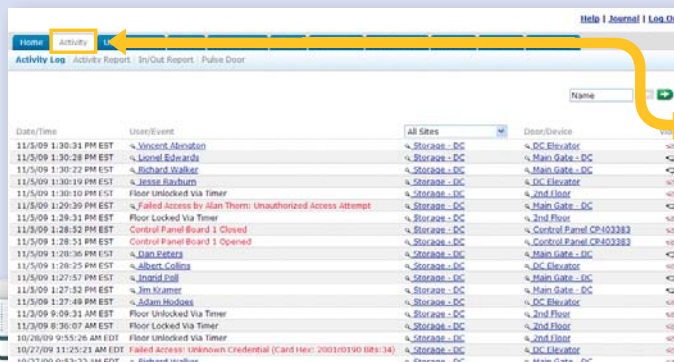

Powerful security made simple.

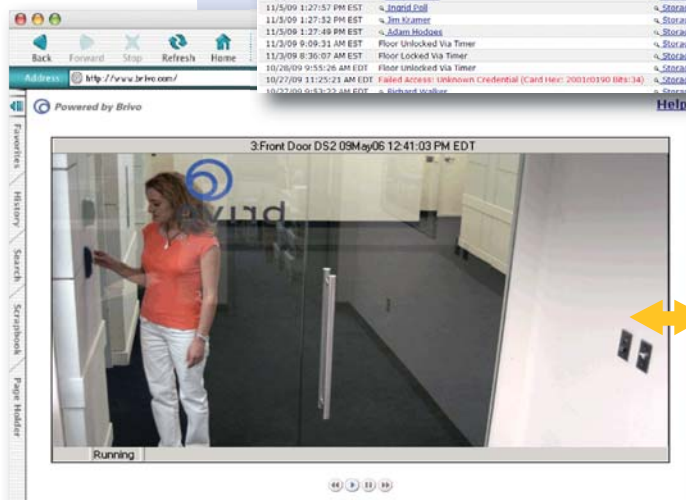

Manage DVRs and Cameras

Administrators can easily add and delete DVRs and cameras online.

Review Activity Logs

Instantly access history by users, facility, even individual doors.

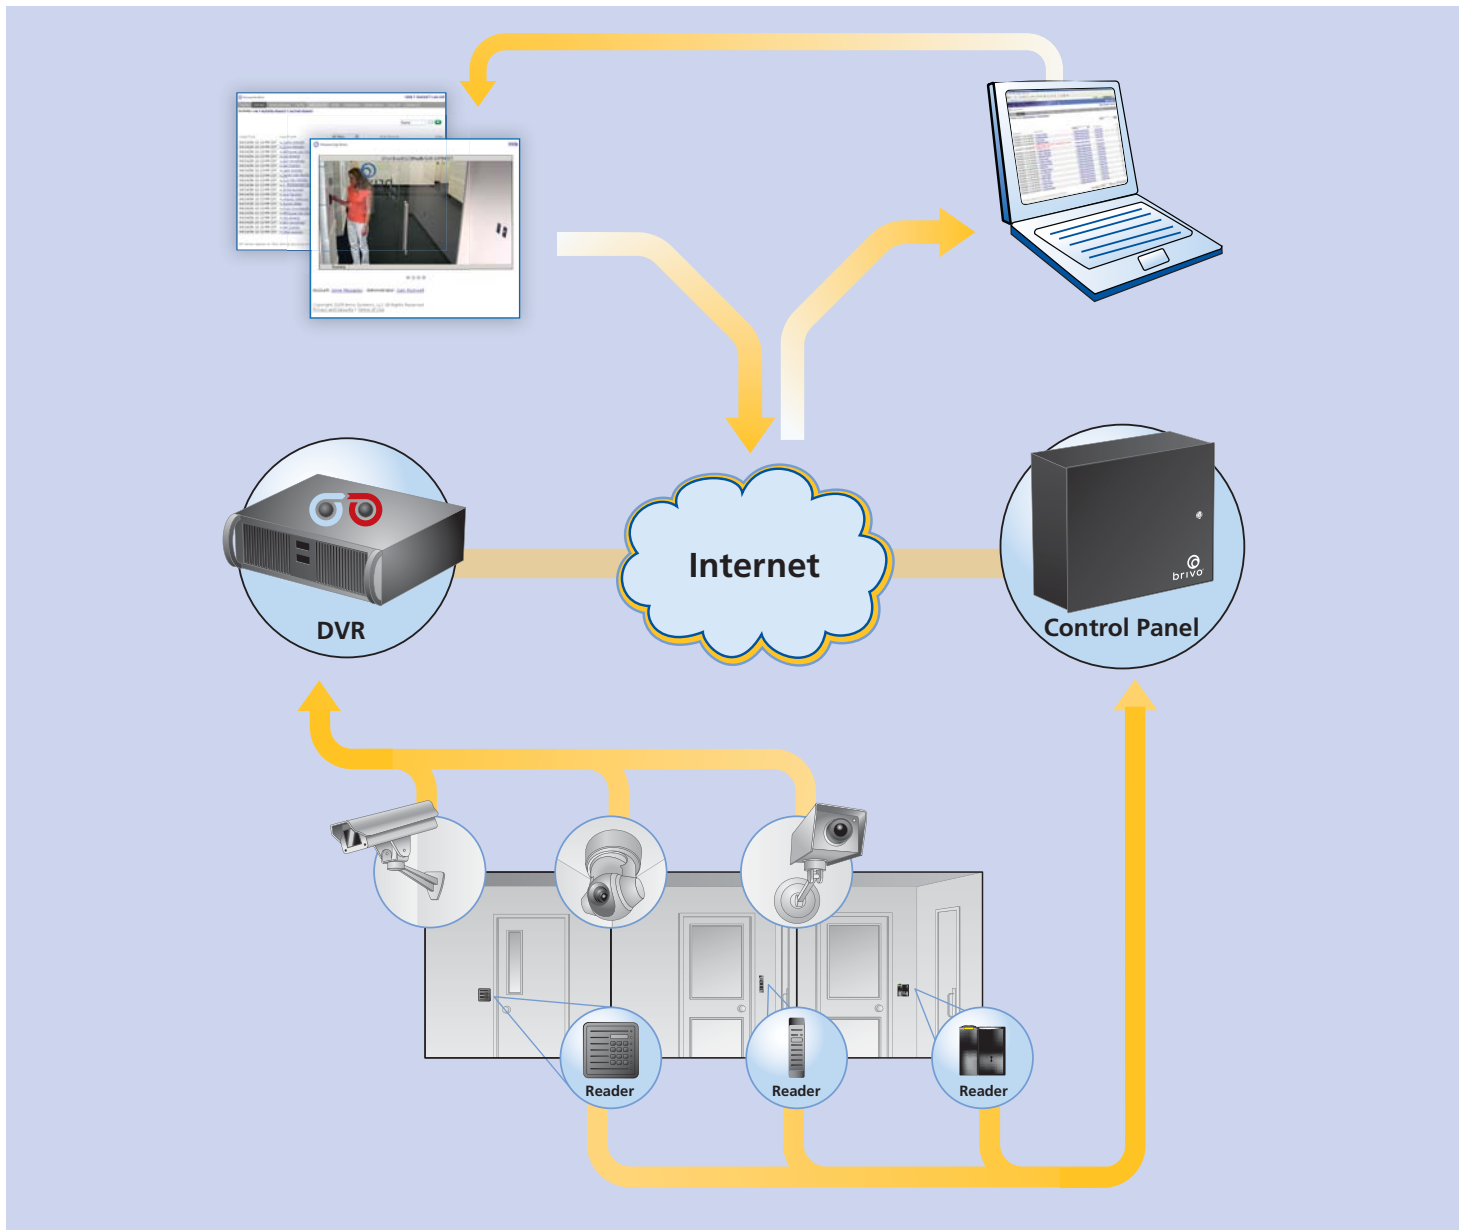

Instant Playback for Video Clips

Click on the video icon to view any event in the Activity Log.

DVR/CCTV Integration

Facts and Figures

For a listing of supported DVRs, contact your Brivo Regional Sales Representative, call us toll-free at 1-866-692-7486, option 1, or email us at sales@brivo.com.
