

BENEFITS OF INTEGRATING BRIVO ONAIR AND 2N IP VERSO

Brivo provides the missing link between your multi-tenant building visitor entry system and physical security platform.

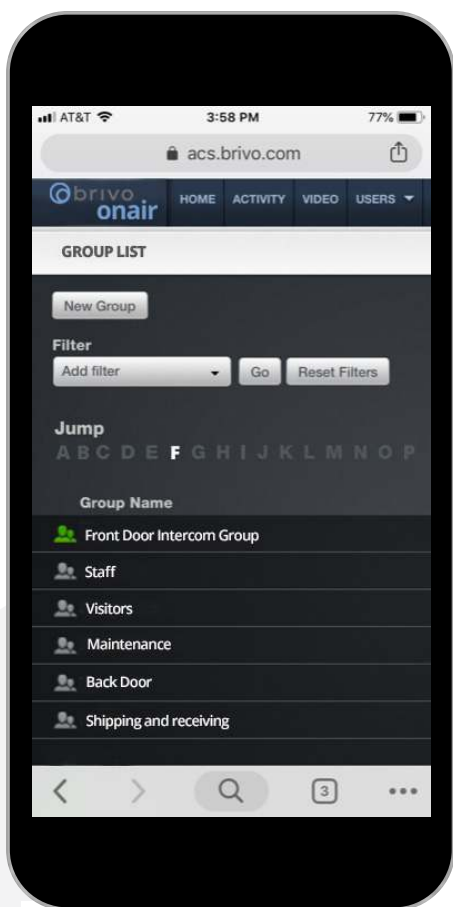

Improve efficiency and directory accuracy.

Seamlessly configure the 2N IP Verso device from Brivo Onair and set-up automatic downloads so your tenant directory is always up to date.

Offer a convenient and safe way to open doors for visitors.

Enable tenants and attendants to grant access to visitors from their phone.

2N IP VERSO INTERCOM

Updates are sent to the 2N directory at specified intervals

Tenant records are created in Brivo Onair and added to the designated intercom group
