

WE SECURE YOUR FACILITIES SO YOU CAN FOCUS ON ENFORCING SECURITY PROGRAMS

As a security manager, you are responsible for protecting your people, your workplace and your perimeter. You are charged with training your team and enforcing security rules. The last thing you should worry about is managing your access control and video surveillance solutions.

BEST-IN-CLASS SECURITY

STAY PRODUCTIVE ANYWHERE

With Brivo Onair® you can make sure your colleagues and leadership team are protected.

- Manage one system for both access control and video surveillance
- Allow colleagues and approved visitors to enter your building
- Connect door events with live or recorded video
- Manage all your doors or locations from one system
- Stay secure with loss free credentials

Manage facility security remotely on your schedule, anywhere and on any device.

- Control access to specific entrances, parking facilities, rooms or locations
- Build custom access schedules for your colleagues, contractors or visitors
- Close facilities remotely in an emergency
- Revoke access rights for lost keycards instantly
- Integrate with identity management systems

FEATURES AND BENEFITS

AFFORDABLE

Eliminate re-keying, re-issuing cards and maintenance costs. Get free technical support when you need it.

Secure your facility remotely with our mobile app and revoke or reinstate access instantly.

SIMPLE TO MANAGE

WORRY FREE

No servers to manage, plus free system setup and automatic software updates.

Add more facilities, doors, users or remote video surveillance at anytime.

SCALABLE

TRUSTED

Accessed by over 10 million users and thousands of companies worldwide.

SAVE
TIME AND
MONEY

Brivo Onair is ideal for security managers with limited IT support or staff and for those looking for ways to reduce costs.

- Access Brivo Onair remotely from anywhere, anytime and from any device eliminating the need to drive back and forth to different offices
- Save money by eliminating rekeying or reissuing keycards when someone loses them
- Save time chasing down credentials from contractors or consultants at contract completion
- Eliminate extra trips to your office for just unlocking the doors
- Avoid IT costs related to maintenance, upgrades or backups

“ Brivo’s web-based system allows us to minimize the number of personnel we need devoted to security, and in turn enables us to efficiently secure our company. ”
