

BRIVO CELLULAR NETWORK MODULE

Deploy Access Control to Locations You Never Thought Possible

Connect to Brivo Onair Control Panels (ACS300 and ACS6000) with our simple, plug-and-play 4G cellular network module.

Brivo Cellular Network Module is ideal for supporting locations and entryways where cellular connectivity is required. It can be used for primary control panel communications or as a backup for local Internet connections. When combined with hard-wired Ethernet and WiFi connections, it provides triple redundancy for control panel communications. Additionally, it is the perfect solution for connecting remote locations and small offices that have no IT support or local area network.

DESIGNED FOR EASE OF IMPLEMENTATION

Brivo Cellular Network Module has a versatile design to easily fit in compact spaces and support a variety of mounting conditions.

- Connect hard-to-wire locations with limited WiFi
- Support remote locations with no Ethernet connectivity
- Install with a simple USB connection to Brivo controllers- no IT support, WiFi router or LAN required
- Mount on drywall or gang boxes in compact spaces
- Single monthly bill from Brivo includes a flat-rate cost-effective cellular service plan

SPECIFICATIONS

Model	B-OA-CNM1-Z1
Network Performance	LTE 4G
Connectors and cables	1 USB Cable for attachment to Brivo controller 1 Antenna Connector 1 Micro Carrier SIM (internal)
Dimensions	Cellular Network Module: 11.5cm X 7cm X 2.1cm (4.5in X 2.75in X 0.9in) Antenna length: 19.3cm (7.6") USB cable length: 86.4cm (34")
Power Draw	5VDC; 26mA sleep, 37mA idle, 450mA max power (MTQ-LVW3-B02)
Environmental	
Operating Temperature	-40° to +85° C / -40° to +185° F
Storage Temperature	-40° to +85° C / -40° to +185° F
Relative Humidity	20% to 90% RH, non-condensing
Certifications	
EMC Compliance	FCC Part 15 Class B
Radio Compliance	LAT3: FCC Part 22, 24, 27 LVW3: FCC Part 27
Safety	UL/cUL 60950-1 2nd ED, IEC 60950-1 2nd ED +Am.2
Network	LAT3: PTCRB
Carrier	Verizon
Warranty	1-year
